

此处测量锡的厚度
Measure tin thickness here

平滑锻造毛刺
Smoothen forging burrs
all around the part.
Sharp edges are not allowed
无飞边

Code	D
PDA240.2	13
PDA240.3	17

镀锡

Surface Treatment: Tin plating 12±2 µm

Symbol	Instruction of the Symbol	No. of Dim
⊕	Basic Dimension. To be measured in full measurement of part	12
⊖	Cpk dimension. To be measured in process capability study	-
⊙	SPC dimension. To be measured during production	-

Note: All numbered dimensions are to be measured in full measurement
